

# Exploratory Data Analysis on World Literacy Rates (UNESCO) along with visualizations through R

Presented by Niraj

# Understanding and Know about data set:-

<https://data.world/makeovermonday/2019w46>

## Access

UNSEO data download

## Understand

Columns and Rows  
Understanding

## Use

Use in EDA using R

## Create

Conclusion and  
Discussion

# Flow of the Presentation

## Objective

Set up an objective to find something interesting

## Research

Check the data and understand relation between col. and row

## Query Set up

Set the questions as per objective to find some insights

## Cleaning

Data Cleaning checking any outliers, Null, Duplicate

## Data Mining

Check the data and its relationship using the R and set the result

## Visualization

Visualization the results

## Thinking

Think why it happens!

## Conclusion

Conclusion from the research

# Import the packages and Library in R

01

`install.packages('ggmap')`

Retrieve and visualize  
spatial data from Google  
maps, Stamen Maps etc

02

`install.packages("ggrepel")`

Process of avoiding  
overlapped texts in plots

03

`library(ggalt)`

The Earth is the only planet  
that harbours life

04

`install.packages('ggplot2')`

Data visualization package  
in the R

05

`install.packages("ggalt")`

Extra Coordinate Systems,  
'Geoms', Statistical  
Transformations, Scales  
and Fonts for 'ggplot2'

06

`library(ggrepel)`

Provides geoms for  
ggplot2 to repel  
overlapping text labels

# Continued.....

07

`library(dplyr)`

an ecosystem of several libraries designed to work together by representing data in common formats

08

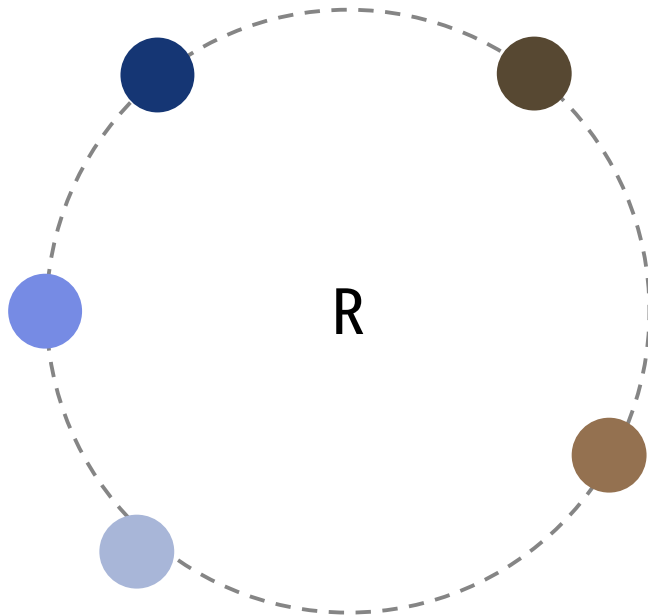

`library(readxl)`

makes it easy to get data out of Excel and into R

09

`library(ggmap)`

Download open sourced map objects

10

`library(ggplot2)`

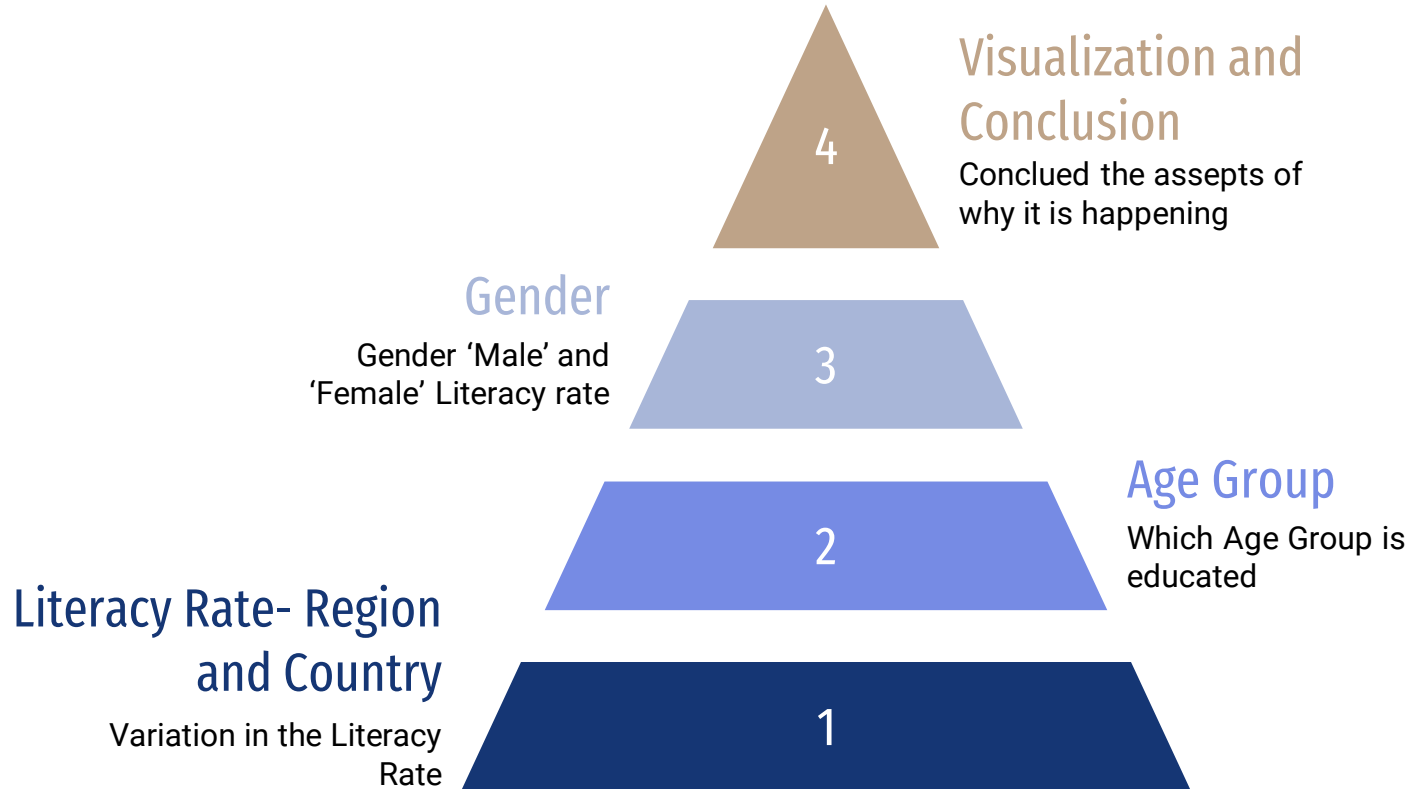

Data Visualization

05

`library(scales)`

internal scaling  
infrastructure

# Objective of the Project:-

# Query Set up:-

Top and Bottom  
Literacy Rate

1

2

Literacy rate 2010-2018

Visulization in MAP

9

3

Focus on India data-  
Gender

Distribution of Literacy  
rate among Gender

8

4

High discrepancy  
between Male and  
Female

Year wise Literacy rate

7

Country[ male>female]  
literacy rate

6

5

Country[ female>male]  
literacy rate

# Know about the data and its structures

Region Name	No of Country
Central and Southern Asia	14
Eastern and South-Eastern Asia	14
Europe and Northern America	23
Latin America and the Caribbean	31
Northern Africa and Western Asia	19
Oceania	8
Sub-Saharan Africa	46
<b>7- Regions</b>	<b>155- Country</b>

Year	Age Range
2010- 2018	15+, 15-24, 25-64, 64+

# Check and Know about the data:-

`str(lt)`

Row-4955,  
Col-6..  
Region,  
Country, Year,  
Age, Gender  
and Literacy  
rate

`head(lt)`

Top 6 rows  
and  
respective  
col.

`glimpse(lt)`

Transpose  
col. Into row  
and can see  
the top 6 rows

`names(lt)`

Name of col.

`summary(lt)`

Mean,  
Median,  
Quartile,  
Max, Min

`is.na(lt),  
duplicated(lt)`

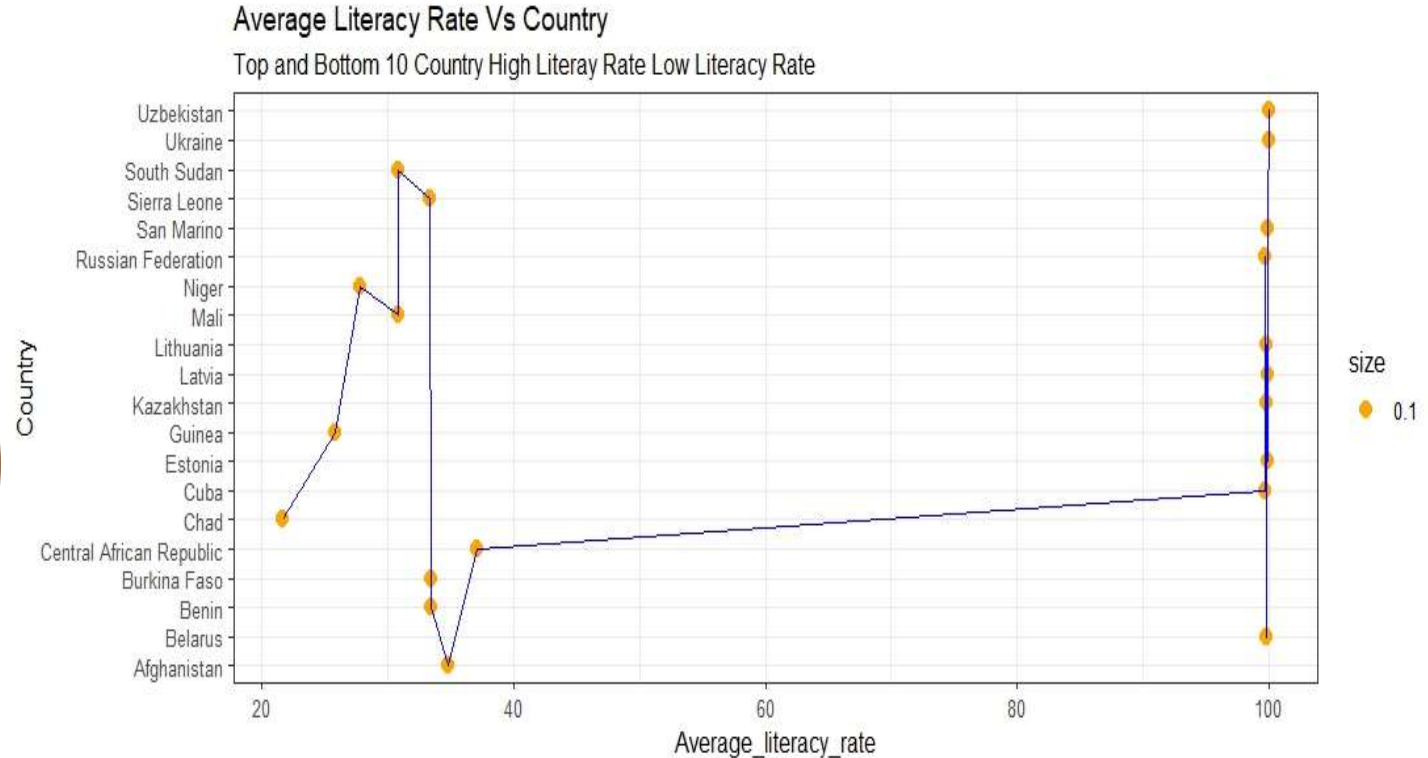

There is no  
any Null and  
Duplicated  
Value

# Data Mining as per set objective

## # 1-Top and Bottom 10 Country High and Low Literacy Rate

### 1. Point and Line

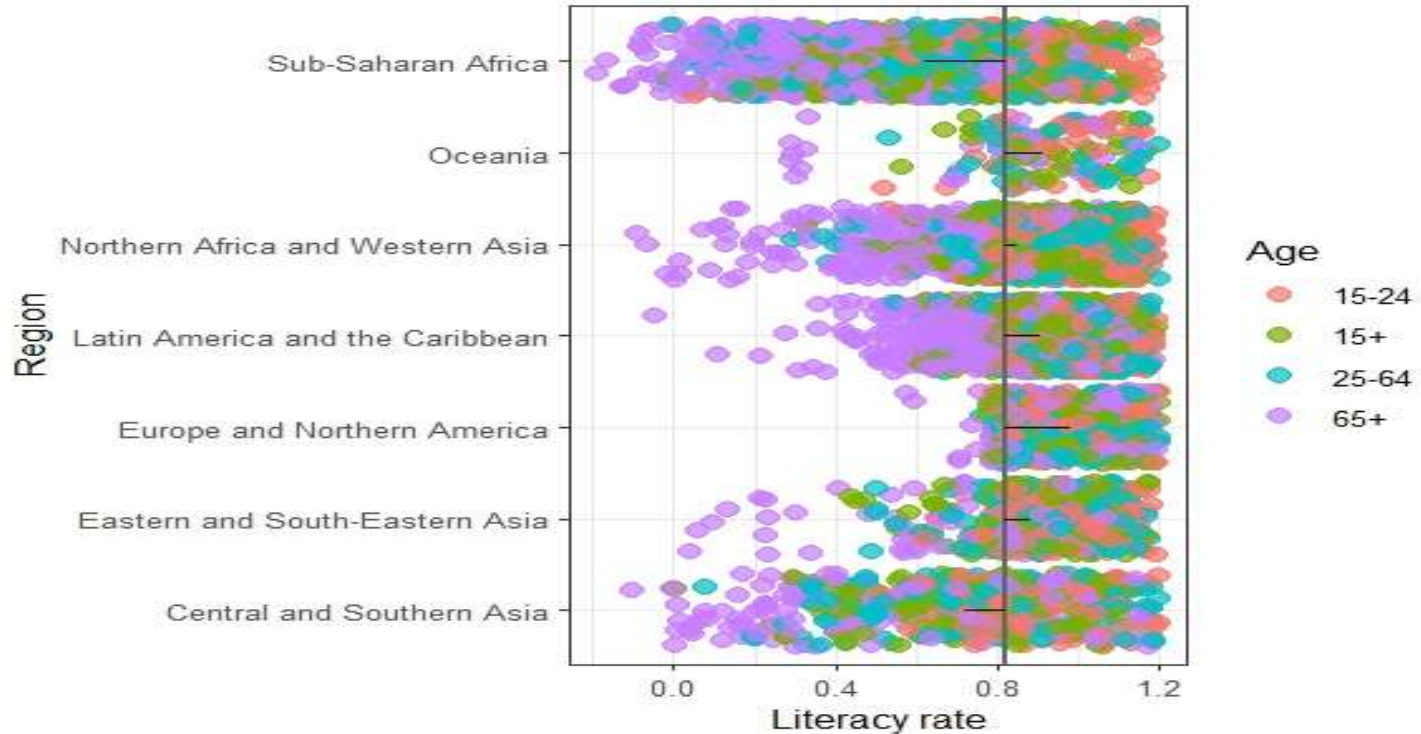

Highest and Lowest Literacy Rate is :

# Data Mining as per set objective

## # 2- Distribution of literacy rate across regions by age

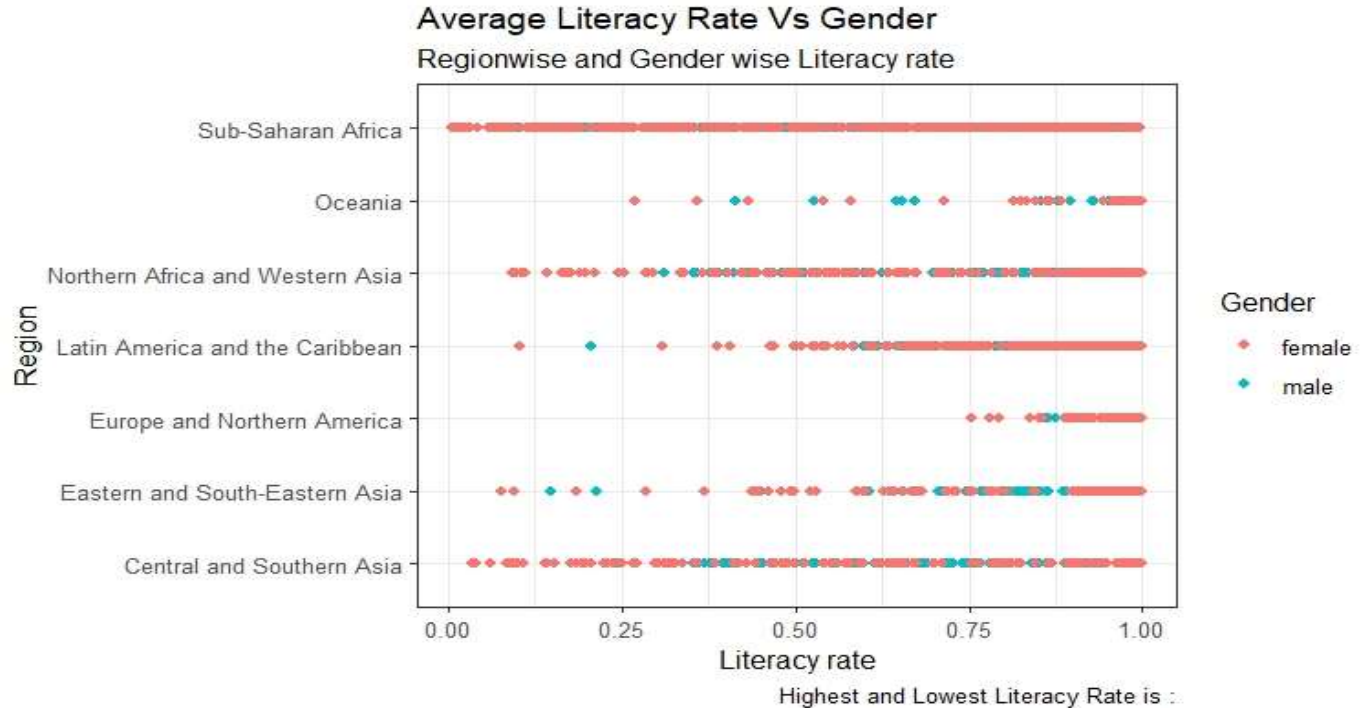

### 1. Scatter

# Data Mining as per set objective

## # 3- Region Wise Gender Wise Literacy rate

### 1. Point, Stack

# Data Mining as per set objective

## # 4- Region Wise Gender Wise Literacy rate

1. Point, hexa

# Data Mining as per set objective

## # 5- Year Wise Literacy Rate

### 1. Table

Region	avg_2010_1	avg_2011_1	avg_2012_1	avg_2013_1	avg_2014_1	avg_2015_1	avg_2016_1
<chr>	<dbl>	<dbl>	<dbl>	<dbl>	<dbl>	<dbl>	<dbl>
Central and S...	0.800	0.514	0.577	0.706	0.830	0.804	0.865
Eastern and S...	0.857	0.833	0.979	0.946	0.864	0.885	0.885
Europe and No...	0.984	0.975	0.980	0.967	0.985	0.978	0.983

Northern Afri...	0.818	0.862	0.831	0.812	0.880	0.901	0.907
Oceania	0.560	0.979	0	0.993	0.868	0.945	0
Sub-Saharan A...	0.631	0.684	0.621	0.487	0.627	0.574	0.511

# Data Mining as per set objective

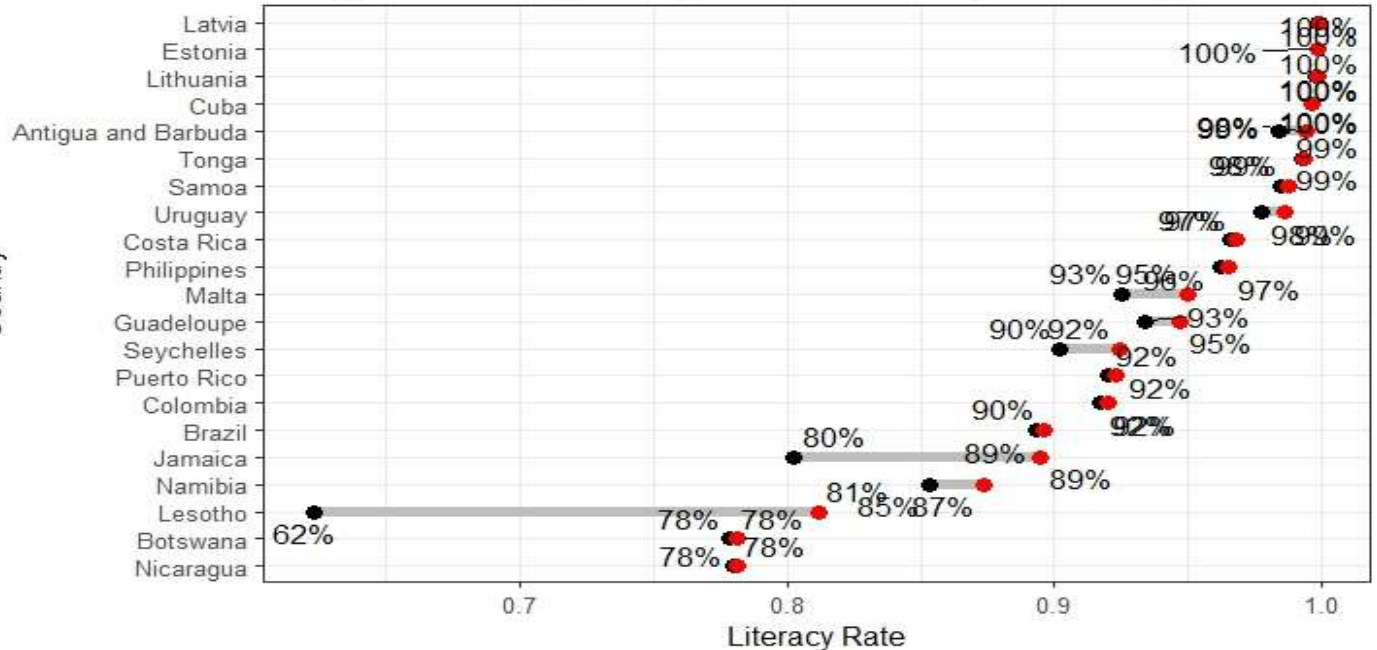

# 6- Countries where the average female literacy rate is greater than the average male literacy rate

1. Dumbel

## Top 20 Countries List

average female literacy rate is greater than the average male literacy rate

# Data Mining as per set objective

# 7- Countries where the average male literacy rate is greater than the average female literacy rate

1. Dumbel

# Data Mining as per set objective

## # 8- Countries with the highest discrepancy between male and female literacy rates

1. Dumbel
2. Female- red
3. Male- blue

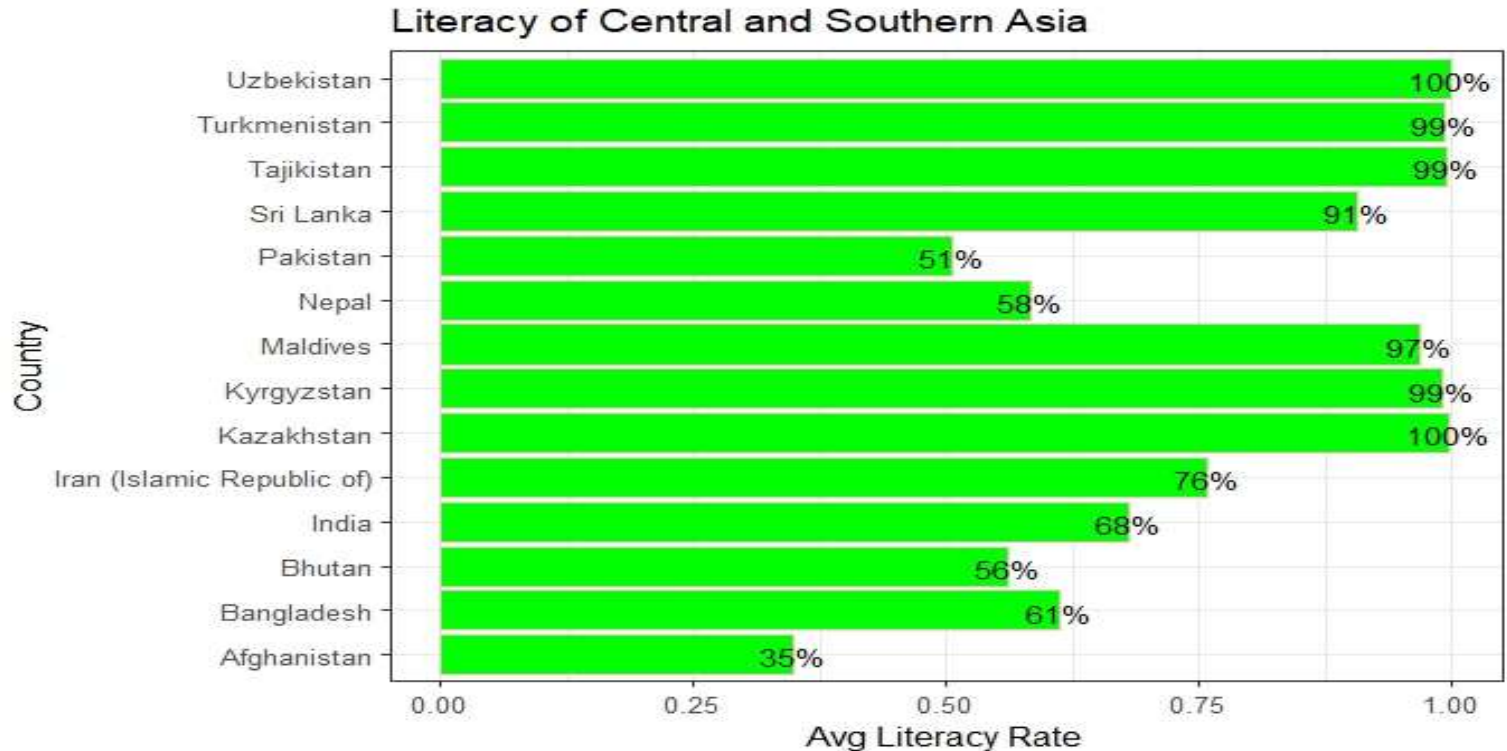

Top 20 countries with highest discrepancy  
Difference in Literacy rate

# Data Mining as per set objective

## # 9- Country India in the Region- 9th Position- Central and Southern Asia

1. Bar

# Data Mining as per set objective

## # 10- Male and Female Literacy Rate in Central and Southern Asia

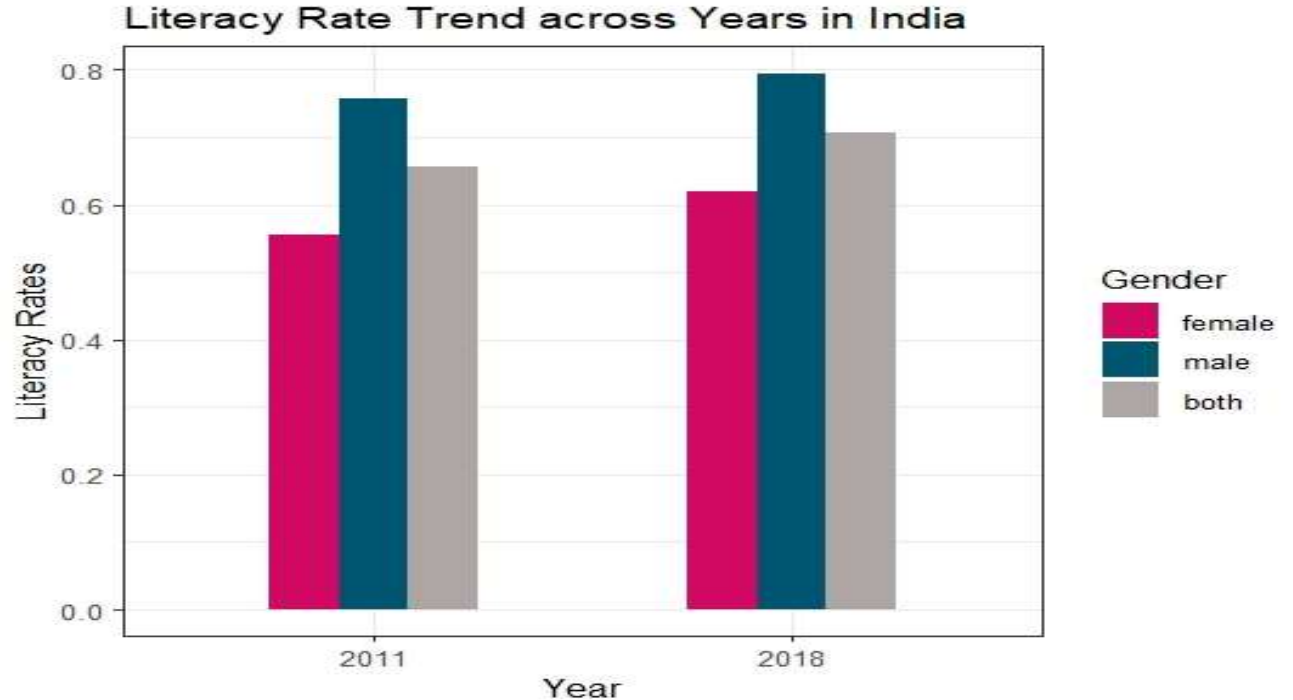

### 1. Bar

# Data Mining as per set objective

## # 11- Literacy Rate by Gender in India by Year

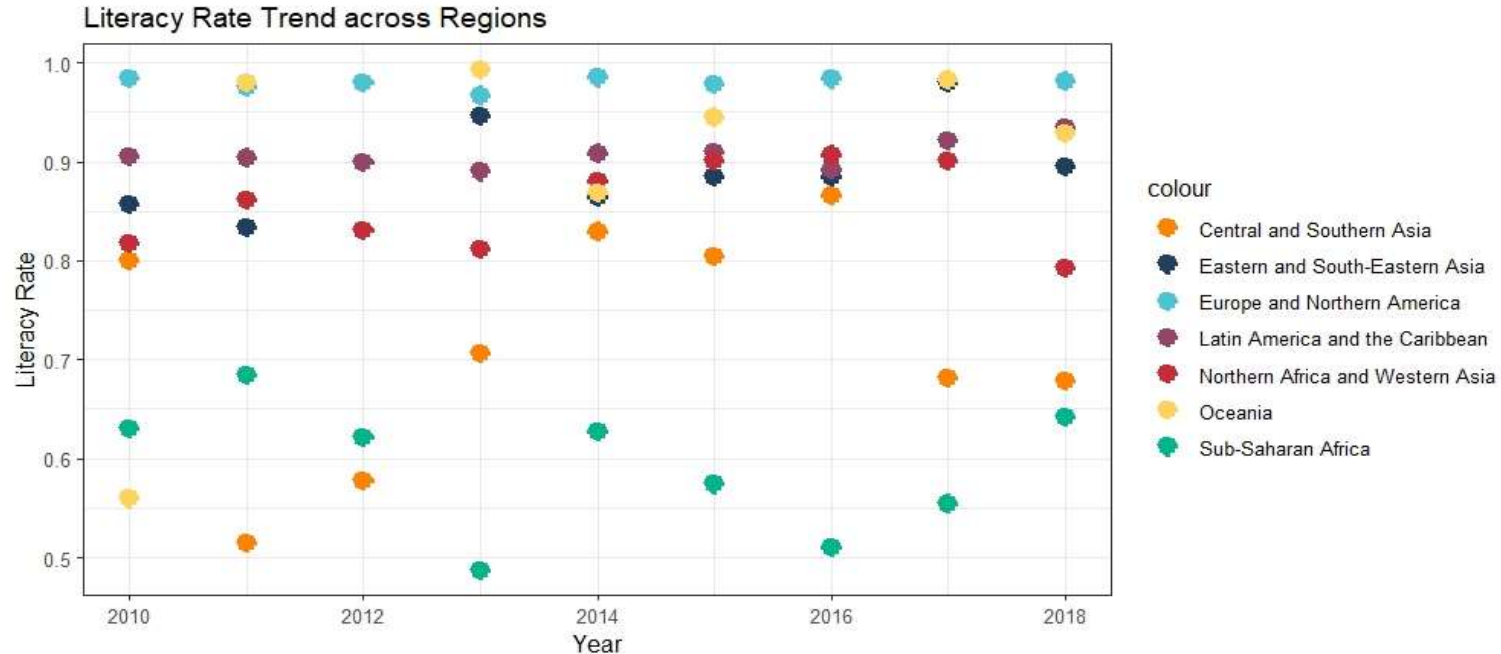

1. Bar

# Data Mining as per set objective

## # 11- Literacy rate across regions from 2011 to 2018

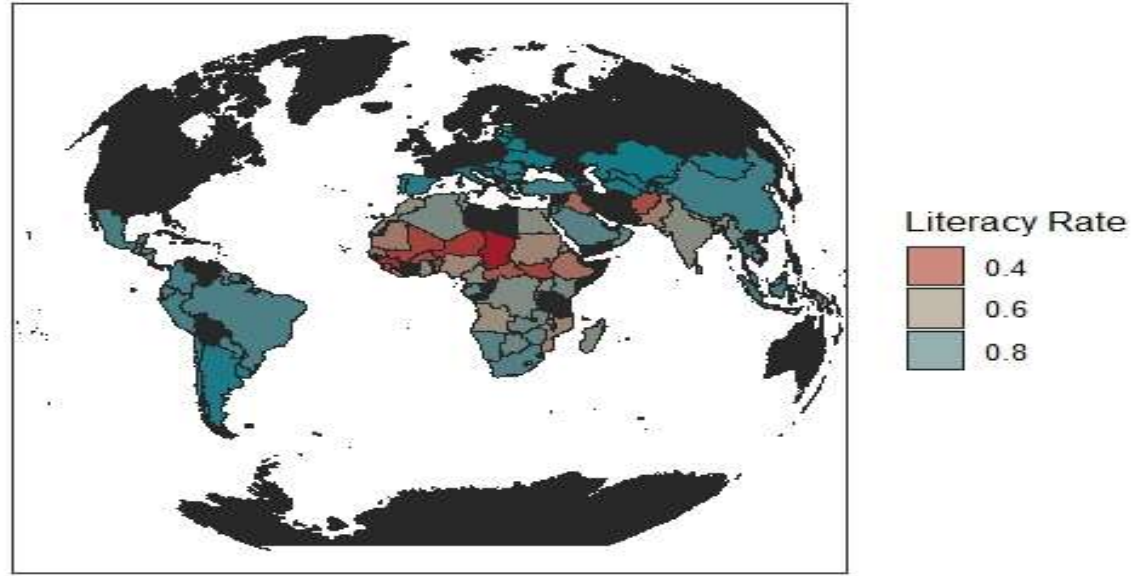

### 1. Scattered

# Data Mining as per set objective

## # 11- Visualization Global Literacy rates on a Map

### 1. Scattered

# Conclusions- Global

## Avg Lowest Literacy Rate

Afganistan- **37%**

## Avg Highest Literacy Rate

Uzbekistan, Ukraine- **99%**

Age Group Having Lowest Lit. Rate  
65+ Years of Age-Found  
in Sub-Saharan Africa- **20  
to 40%**

Age Group Having Highest Lit. Rate  
25-64 Years of Age-  
Found in Europe and  
North America- **80 to 95%**

## Reason

Political Instability, deep rooted  
of 'Taliban' armed forces, and  
traditional practices

## Reason

Free Education Policy

## Reason

poverty and lack of  
Government commitment

## Reason

access to education and  
socio-economic  
conditions

# Conclusions- Global

## Avg Lowest: Female Lit. Rate

Sub-Saharan Africa- **25 to 50%**

## Avg Highest: Female Lit. Rate

Latin America and the Caribbean- **75 to 95 %**

## Avg Lowest: Male Lit. Rate

Central and Southern Asia- **37 to 50%**

## Avg Highest: Male lit.Rate

Oceania- **70 to 95%**

## Reason

historical, cultural, and socioeconomic inequalities

## Reason

Robust Administrative and insitutional reforms

## Reason

Large families in rural regions are unable to afford education, and most children cannot attend primary schools

## Reason

access to education and socio-economic conditions

# Conclusions- Global

Avg Female Lit. Rate > Avg Male Lit. rate

Lesotho- **16 % difference**

Avg Female Lit. Rate > Avg Male Lit. Rate

Lativa- **0.1% difference**

Avg Male Lit. Rate > Avg Female Lit. Rate

Angola- **22% difference**

Avg Male Lit. Rate > Avg Female Lit. Rate

Belarus- **0.1 % difference**

Reason

Govt encourages to Female Education

Reason

Govt enforces Policy to have better education systems

Reason

Low level of income

Reason

Govt more budget on Education

# Conclusions- Global

Highest disparities in male and female Lit. Rate and Lit. Rate- 20 to 55%

Liberia and Guinea-Bissau- **31% difference**,

Highest disparities in male and female Lit. Rate and Lit. Rate 10 to 30%

Chad – **19% difference**

Highest disparities in male and female Lit. Rate and Lit. Rate- 60 to 80%

Uganda- **20% difference**

## Reason

violence against women, unpaid care, early marriage

## Reason

high population growth, lack of financial resources, poverty, conflict, regional insecurity leading to population displacement, and the implications of climate change

## Reason

Poverty

# Conclusions- Asia

## Asia: Lowest Literacy Rate

Afganistan- **35%**

## Asia: Highest Literacy Rate

Uzbekistan – **100%**

## Asia: India Literacy Rate

India-**68%, ranks 9<sup>th</sup> in Asia**

## Reason

The resurgence of the Taliban has precipitated a dire educational crisis in the country, Denial of education for women

## Reason

Govt decision of free and compulsory schooling

## Reason

economic inequities, gender discrimination, caste prejudice, and technological hurdles

# Conclusions- India

## India: Female Literacy Rate

Female- **57% in 2011 and improved by 4% in 2018**

## India: Male Literacy Rate

Male – **75% in 2011 and improved by 4% in 2018**

## India: Overall Literacy Rate

India- **65 % in 2011 and improved by 4% in 2018**

## Reason

economic inequities, gender discrimination, caste prejudice, and technological hurdles

## Govt Actions

The National Policy on Education (NPE) is a policy formulated by the Government of India to promote and regulate education in India

## Govt Previous Actions

Sarva Shiksha Abhiyan (SSA) is implemented as India's main Programme for universalizing elementary education, Mid Day Meal

# Conclusions- Literacy Rate in World Vs Year

## World: Over 9 years

Uncertainty seen in African Continent- [40% to 69%]

## World: Over 9 years

Constant seen in Latin America and Caribbean- [90 % to 94%]

## World: Over 9 years

Increment seen Central and Southern Asia- [50% to 80%]

## Reason

Poverty, lack of infrastructure, and political instability have all contributed to low enrollment and high dropout rates, especially for girls

## Reason

guarantee inclusive, equitable and quality education and promotes learning opportunities throughout life for all

## Reason

Govt Policies, Right to Education Act

# Thank You
